

C2Nav Android

The C2Nav Android is built on top of the Panasonic FZ-A3 powered by Android, which delivers an enterprise solution for operations in rain or shine. The C2Nav Android offers durability, power, and a wide range of configurations. With the C2Nav Android, we designed a superior mobile ground control station built to enable mission-critical mobile worker productivity without compromise. It is universal and agnostic for the operating system. The C2Nav features long life, a user-replaceable battery, and a daylight-readable, high-sensitivity, multi-touch display for use with heavy gloves.
